

Victorian Cooperative Oncology Group presents:

Professor Otis Brawley

MD, Chief Medical Director, American Cancer Society

Public Health Seminar

“Screening complexities: the contributions and potential of behavioural research in improving cancer screening outcomes”

Professor Otis Webb Brawley, MD is the Chief Medical Officer and Executive Vice President of the American Cancer Society. Professor Brawley is responsible for promoting the goals of cancer prevention, early detection, and quality treatment through cancer research and education. Dr. Brawley also currently serves as professor of haematology, oncology, medicine and epidemiology at Emory University. He has previously served as a member of the Society's Prostate Cancer Committee, co-chaired the U.S. Surgeon General's Task Force on Cancer Health Disparities, and filled a variety of capacities at the National Cancer Institute (NCI), most recently serving as Assistant Director
