

The research we fund

Several researchers are working in several cancer areas, so some entries appear more than once.

In the case of some larger grants, discrete projects within that grant are listed separately.

The Cancer Information and Support Service (CISS) does not fund any research but remains actively involved in and committed to a range of research in supportive care.

Abbreviations

CBRC Centre for Behavioural Research in Cancer
CEC Cancer Epidemiology Centre
CISS Cancer Information and Support Service
CPC Cancer Prevention Centre
CTO Clinical Trials Office
VCOG Victorian Cooperative Oncology Group
VCTC VicHealth Centre for Tobacco Control
 These are parts of Cancer Council Victoria.

All cancer

The biological effects of synchrotron microbeam radiation therapy on normal and tumour tissues

Professor Peter Rogers, Professor Rob Lewis, Dr Imants Svalbe, Professor Bryan Williams, Dr David Blakley (Monash Institute of Medical Research)
Cancer Council Victoria Venture Grant

Cancer Genetics: a prospective, multicentre, open, parallel group, randomised controlled trial to evaluate the effectiveness of passive versus active disclosure of genetic information to those at risk of familial cancer (VCOG CG 1-06): currently recruiting

Professor Ingrid Winship, Associate Professor Victoria White (CBRC), Deborah Howell (CTO), VCOG Cancer Genetics Committee **COLLABORATORS:** Austin Health, Barwon Health, Southern Health, Peter MacCallum Cancer Centre, Melbourne Health

Cancer in Victoria 2006 Canstat No. 46

Vicky Thursfield, Helen Farrugia, Professor Graham Giles (CEC)

Cancer Issues Population Survey
 Dr Jane Fletcher, Professor Melanie Wakefield (CBRC)

Combined therapy of established cancer

Professor Mark Smyth (Research Division, Peter MacCallum Cancer Centre)
Cancer Council Victoria Research Grant 2008–2010

Development of a web-based database of all cancer incidence and mortality in Victoria between 1982 and 2005: a suite of web-based interactive reports for public web access (TARDIS)

Helen Farrugia, Vicky Thursfield, Emily Karahalios, Jonathan Yue (CEC)

Development of targeted therapies for cancer

Associate Professor Grant McArthur (Divisions of Research and Clinical Haematology/Medical Oncology, Peter MacCallum Cancer Centre)
Cancer Council Victoria's Sir Edward Dunlop Cancer Research Fellowship 2006–2010

Drosophila as a novel tool for anti-cancer drug discovery

Dr Anthony Brumby, Dr Patrick Humbert, Dr Helena Richardson, Dr Ian Street (Peter MacCallum Cancer Centre)

Cancer Council Victoria Venture Grant

ECIHNDAS (Epidemiology of Chronic Disease, Health Interventions and DNA Studies)

Professor Graham Giles, Professor David Hill, Professor Dallas English, Professor Melanie Wakefield (CEC, CBRC) **COLLABORATORS:** Professor John Hopper, Professor Jeremy Jass (deceased), Professor John McCallum, Professor Andrew Tonkin
National Health & Medical Research Council Program Grant

Health 2020 Cohort Study

Professor Graham Giles, Professor Dallas English (CEC) **COLLABORATORS:** Professor Kerin O'Dea, Professor John Hopper, Professor Rob Sutherland, Professor Leon Flicker, Professor Melissa Southey

National Health & Medical Research Council Enabling Grant

Health 2000–2020 follow-up

Professor Graham Giles, Professor David Hill, Professor Dallas English, Professor Melanie Wakefield (CEC, CBRC) **COLLABORATORS:** Professor John Hopper, Professor Jeremy Jass (deceased), Professor John McCallum, Professor Andrew Tonkin

How do proteins regulate cell behaviour?

Professor Leon Bach, Associate Professor Gregory Rice (Department of Endocrinology, The Alfred)

Cancer Council Victoria Research Grant 2007–2009

Human dendritic cell development

Dr Li Wu (Immunology Division, Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Research Grant 2007–2009

Immunotherapy of Lewis Y+ malignancy

Dr Phillip Darcy, Dr Michael Kershaw, Professor Joseph Trapani (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2007–2009

Inhibiting Bcl-2 proteins for cancer therapy

Dr Walter Fairlie, Dr David Huang (Structural Biology Division, Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Research Grant 2007–2009

A model system for assessing a novel target in cancer therapy

Dr Philip Thompson, Professor Bert Vogelstein (Department of Medicinal Chemistry, Monash University)

Cancer Council Victoria Research Grant 2007–2009

Mouse models to study the Bcl-2 family of proteins

Dr Philippe Bouillet, Dr Gabrielle Belz (Molecular Genetics of Cancer Division, Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Research Grant 2008–2009

Pilot clinical audit: pathophysiology of malignant ascites and the efficacy and complications of paracentesis (VCOG PM 2-06): currently recruiting

Dr Tamsin Bryan, Dr Kate Jackson, Deborah Howell (CTO), VCOG Palliative Medicine Committee **COLLABORATORS:** Austin Health, Barwon Health, Bethlehem Hospital, Caritas Christi Hospice, Gandarra Palliative Care Unit Ballarat, Mercy Hospital Werribee, Southern Health McCulloch House, Northern Health, Peter MacCallum Cancer Centre, Melbourne Health, St Vincent's Health, Wantirna Health Palliative Care, Western Health

PROSPECT program (Patient Responses: an Ongoing Survey of People Experiencing Cancer Treatment)

Associate Professor Victoria White, Professor Melanie Wakefield, Professor Graham Giles, Professor David Hill, Helen Farrugia (CBRC, CEC); **COLLABORATOR:** Dr Mariko Carey

The role of LIM kinase 2 in the spread of cancer

Dr Ora Bernard (St Vincent's Institute of Medical Research)

Cancer Council Victoria Research Grant 2008–2010

Role of the protein kinase AKT3 in cancer

Dr Richard Pearson (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2008–2010

The role of Scribble in cancer

Dr Patrick Humbert (Cell Cycle and Cancer Genetics, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2007–2009

SAP180 and RBP1 are novel CDK substrates regulating the tumour suppressor pRb

Dr Borislav Sarcevic (St Vincent's Institute of Medical Research)

Cancer Council Victoria Research Grant 2008–2010

Scanning the genome for new drug targets in cancer

Dr Warren Alexander, Dr Benjamin Kile, Professor Andreas Strasser (Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Venture Grant

Second primary cancers in Victoria

Emily Karahalios, Professor Dallas English, Vicky Thursfield, Helen Farrugia, Professor Graham Giles (CEC)

Structural studies of cancer proteins

Dr Mark Hinds, Dr Catherine Day (Division of Structural Biology, Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Research Grant 2009–2011

UICC Global Cancer Survey

Professor Melanie Wakefield, Anna Machlin, Dr Matt Spittal, Melissa Cameron (CBRC), Professor David Hill

International Union Against Cancer (UICC)

The use of novel therapies in stem cell transplantation treatments for cancer

Dr Kirsten Herbert (Division of Clinical Haematology and Medical Oncology, Peter MacCallum Cancer Centre)

Cancer Council Victoria Early Career Clinical Research Fellowship 2008–2011

Understanding the mechanism of action of PI3kinase mutations

Associate Professor Wayne Phillips (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2009–2011

Victorian Cancer Outcomes Network (VCON): a clinical data collection scheme for cancer patients treated in Victoria

Professor Graham Giles, Helen Farrugia (CEC) **COLLABORATORS:** Professor Paul Michell, Associate Professor Raymond Snyder, Dr Meng Tuck Mok, Professor David Hill

Victorian Cancer Registry

Professor Graham Giles, Helen Farrugia, Debbie McBain, Vicky Thursfield (CEC)

Department of Health

Victorian Cancer Registry cancer record linkages

Helen Farrugia, Professor Graham Giles (CEC)

Victorian Cancer Registry cancer studies case recruitment

Professor Graham Giles, Helen Farrugia (CEC)

Victorian Cancer Trials Link

Associate Professor Raymond Snyder (St Vincent's Hospital), Deborah Howell, Sarah Dugdale, Jennifer Petersen (CTO), Stuart Wells

Victorian Cancer Agency Grant 2008–2009

Victorian Family Cancer Genetics Service Central Family Cancer Register

Professor Graham Giles, Helen Farrugia, Tola McArdle, Kate Minkoff (CEC)

Department of Health

The research we fund

Bone cancer

Role of WIF1 in bone development and cancer

Dr David Thomas, Associate Professor Paul Simmons (Sarcoma Genomics and Genetics, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2007–2009

Sarcoma Management Survey

Professor Graham Giles, Vicky Thursfield (CEC). A collaboration between CEC and VCOG Sarcoma Committee

Bowel cancer

Collaborative Family Registry for colorectal cancer studies

Professor John Hopper **COLLABORATOR:** Professor Graham Giles (CEC)

US National Institutes of Health

Collaborative phase II trial for T3-T4 resectable rectal cancer of pre-operative pelvic irradiation combined with fluorouracil and leucovorin (VCOG GI 1-97)

Mr Joe Tjandra, Deborah Howell (CTO), VCOG Gastrointestinal Trials Sub-Committee
 42 patients were recruited within Victoria between 1998 and 1999. Follow-up continued in 2007.

COLLABORATORS: The Alfred, Austin Health, Ballarat Oncology and Haematology Services, Barwon Health, Border Medical Oncology, Box Hill Hospital, Flinders Medical Centre (SA), Maroondah Hospital, Monash Medical Centre, Peter MacCallum Cancer Centre

Colon cancer biomarkers

Associate Professor Edouard Nice, Dr Peter Gibbs, Dr Lara Lipton (Protein Biosensing Laboratory, Ludwig Institute for Cancer Research)

Cancer Council Victoria Research Grant 2007–2009

Controlling coeliac disease and cancer

Dr Bob Anderson (Autoimmunity and Transplantation Division, Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Lions Fellowship 2003–

Models of peer support for bowel cancer patients

Associate Professor Victoria White, Dr Louisa Hoey, Dr Sandra Ieropoli, Associate Professor Michael Jefford, Doreen Akkerman, Tina Thomas (CBRC, CISS) **COLLABORATOR:** Cancer Australia

Molecular taxonomy of breast, prostate and colorectal cancers in the Melbourne Collaborative Cohort Study

Professor Graham Giles, Professor Dallas English (CEC) **COLLABORATORS:** Professor Jeremy Jass (deceased), Dr Joanne Young, Dr John Pedersen, Professor Melissa Southey

Picchi Foundation

Reducing unmet psychosocial needs of colorectal cancer patients

Associate Professor Victoria White, Dr Michelle Macvean, Suzi Grogan, Dr Sandra Ieropoli (CBRC, CISS)

COLLABORATORS: Professor Robert Sanson-Fisher, Associate Professor Catherine D'Este, Dr Christopher Doran

National Health & Medical Research Council

Risk factors for molecular subtypes of colorectal cancer

Professor Dallas English, Dr Joanne Young, Dr Mark Jenkins, Professor Jeremy Jass (deceased)

National Health & Medical Research Council

Brain cancer

Case-control study of brain and other tumours in adults and exposure to radio-frequency electromagnetic energy in use of mobile phones

Professor Bruce Armstrong
COLLABORATOR: Professor Graham Giles (CEC)

National Health & Medical Research Council

Glioma Management Survey

Professor Graham Giles, Vicky Thursfield (CEC). A collaboration between CEC and VCOG Neuro-Oncology Committee

Breast cancer

Breast cancer cells suppress immune defence pathways in order to spread to bone

Dr Belinda Parker, Professor Paul Hertzog (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2009–2010 – Girls Night In

Collaborative family registry for breast cancer studies

Professor John Hopper
COLLABORATORS: Professor Graham Giles, Dr Margaret McCredie

US National Cancer Institute

Collaborative Oncological Gene-Environment Study

Professor Graham Giles, Professor Judith Clements (Queensland University of Technology), Professor Dallas English, Dr Vanessa Hayes (CCIA), et al.

National Health & Medical Research Council – EU 2009–2013

Collaborative phase II trial of neo-adjuvant doxorubicin and docetaxel in patients with locally advanced breast cancer (VCOG BR 1-99)

Dr Mitchell Chipman, Deborah Howell (CTO), VCOG Breast Trials Sub-Committee
 40 patients were recruited within Victoria between 2000 and 2003. Follow-up continued in 2007.

COLLABORATORS: The Alfred, Monash Medical Centre, Royal Melbourne Hospital, St Vincent's Hospital, Western Hospital

DCIS management since publication of clinical practice recommendations: surgeons' practices and women's experiences

Associate Professor Victoria White, Myee Pruden, Claire Davey, Charles Warne (CBRC) **COLLABORATORS:** Mr Paul Kitchen, Dr Bircan Erbas, Dr Elmer Villanueva

National Health & Medical Research Council

Developing compounds to target breast cancer by specific inhibition of the LMO4-oncogene

Dr Jane Visvader, Dr Ian Street, Associate Professor Geoff Lindeman, Dr Keith Watson, Dr Marie-Liesse Asselin-Labat (Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Venture Grant

Dynamic EMT and MET in breast cancer

Associate Professor Erik Thompson, Professor Peter Choong, Dr Prue Hill, Associate Professor Michael Henderson, Professor Klaus Pantel (Department of Surgery, University of Melbourne)

Cancer Council Victoria Research Grant 2009–2010

The effect of low oxygen levels in solid breast tumours and surrounding tissues as potential drug intervention target

Professor David Bowtell, Dr Andreas Möller (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2009–2011

Evaluation of the efficacy of the Australian mammographic screening program

Dr Anne Kavanah (University of Melbourne), Professor Dallas English, Dr Graham Byrne, Dr Carol Nickson

National Health & Medical Research Council

GAPDH inhibits telomerase and telomeres in cancer

Associate Professor Jun-Ping Liu (Department of Immunology, Monash University)

Cancer Council Victoria Research Grant 2009–2011

HSF-1 and cancer metastasis

Dr John Price, Dr Kent Hunter, Dr Jackie Wilce (Department of Biochemistry and Molecular Biology, Monash University)

Cancer Council Victoria Research Grant 2009–2011

Identification of novel breast cancer suppressor and chemotherapeutic drug sensitive genes using shRNA-mediated functional genomics screens

Associate Professor Ricky Johnstone, Dr Ross Hannan, Associate Professor Grant McArthur, Dr Rick Pearson (Peter MacCallum Cancer Centre)

Cancer Council Victoria Venture Grant

International collaborative phase III trial of adjuvant zoledronic acid to reduce recurrence in patients with localised breast cancer (VCOG BR 2-03)

Associate Professor Richard Bell, Deborah Howell (CTO), VCOG Breast Trials Sub-Committee

142 patients were recruited in Victoria, contributing to 251 patients in Australasia between 2003 and 2006 and an international total of 3360. Follow-up continued in 2007.

COLLABORATORS: The Alfred, Austin Health, Ballarat Oncology and Haematology Services, Barwon Health, Border Medical Oncology, Box Hill Hospital, Freemasons Hospital, Maroondah Hospital, Mercy Private Hospital, Monash Medical Centre, Peninsula Health, Peter MacCallum Cancer Centre, Royal Melbourne Hospital, St John of God Geelong, St Vincent's Health, Western Hospital and 14 other sites in Australia and Thailand

Novartis Pharma Australia

International collaborative phase III trials of breast cancer

International Breast Cancer Study Group, Deborah Howell (CTO), VCOG Breast Trials Sub-Committee

1510 patients were recruited in Victoria between 1978 and 2001. Follow-up of 860 patients continued in 2007.

COLLABORATORS: The Alfred, Austin Health, Ballarat Base Hospital, Ballarat Oncology & Haematology Services, Bendigo Health Care Group, Border Medical Oncology (Wodonga), Box Hill Hospital, Geelong Hospital, Maroondah Hospital, Monash Medical Centre, Peninsula Health, Peter MacCallum Cancer Centre, Royal Melbourne Hospital, St Vincent's Health, Western Hospital, Australian New Zealand Breast Cancer Trials Group

A new approach to identifying individuals at risk of cancer

Associate Professor Alexander Dobrovic (Department of Pathology, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2009–2011

Prospective, randomised, open label, parallel group trial to determine whether (neo)adjuvant treatment with zoledronic acid is superior to (neo)adjuvant treatment alone in improving disease free and bone metastasis free survival of patients with stage II/III breast cancer (VCOG BR 2-03): follow-up

Associate Professor Richard Bell, Deborah Howell (CTO), VCOG Breast Trials Sub-Committee

COLLABORATORS: The Alfred, Austin Health, Ballarat Oncology and Haematology Services, Barwon Health, Border Medical Oncology, Box Hill Hospital, Freemasons Hospital, Maroondah Hospital, Mercy Private Hospital, Monash Medical Centre, Peninsula Health, Peter MacCallum Cancer Centre, Royal Melbourne Hospital, St John of God Geelong, St Vincent's Health, Western Hospital and 16 additional hospitals throughout Australia

Novartis Pharma Australia

Reducing the burden of breast cancer

Associate Professor Kelly-Anne Phillips (Division of Clinical Haematology and Medical Oncology, Peter MacCallum Cancer Centre)

Cancer Council Victoria Colebatch Fellowship 2006–2011

Risk factors and prognostic factors for breast cancer of different immunohistochemical subtypes
Dr Laura Baglietto, Dr Helen Kelsall, Dr Catriona McLean, Professor Graham Giles (CEC)

National Health & Medical Research Council 2008–2010

Risk factors for breast cancer

Dr Laura Baglietto, Professor Dallas English, Professor Graham Giles, Dr Allison Hodge, Dr Robert MacInnis, Dr Julie Simpson (CEC)

COLLABORATORS: Professor John Hopper, Dr Dorota Gertig
Val Secomb Fellowship

SNAC2: a randomised trial of extending sentinel node based management to women with larger or multifocal breast cancers

Dr Neil Wetzig (Qld), Associate Professor Grantley Gill (SA), Associate Professor Owen Ung (NSW), Associate Professor John Collins (Vic, Royal Melbourne Hospital), Dr David Oliver (WA)

Cancer Council Victoria Multi-State Research Grant 2007–2009

Study of radiation responses in the body and cancers

Dr Huiling Xu, Associate Professor Michael McKay (Division of Research, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2008–2010

Testing the effectiveness of a web-based program involving quality of life and reducing anxiety for younger women with breast cancer: a randomised controlled trial

Associate Professor Victoria White, Jane Hayman (CBRC), Professor David Hill, Dr Amanda Hordern (CISS), Professor Ron Borland
COLLABORATORS: Dr Mariko Carey, Associate Professor Michael Jefford, Dr Nick Pachter, Dr James Kearsley, Dr Tracy Dudding, Dr Kathy Tucker

National Breast Cancer Foundation, Beyond Blue, Cancer Australia 2009–2012

Vaccine for breast cancer

Professor Geoffrey Pietersz (Macfarlane Burnet Institute for Medical Research and Public Health)
Cancer Council Victoria Research Grant 2008–2010

Gynaecological cancer

Cancer associated fibroblasts

Associate Professor Ian Campbell, Associate Professor Kornelia Polyak (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2009–2011

Evaluation of the PapScreen Communication and Recruitment program

Robyn Mullins, Jenny Anderson (CBRC)

PapScreen Victoria

GAPDH inhibits telomerase and telomeres in cancer
Associate Professor Jun-Ping Liu (Department of Immunology, Monash University)

Cancer Council Victoria Research Grant 2009–2011

Gynaecological cancers in HNPCC
Dr Yolanda Antill, Professor Ingrid Winship, Dr Mark Jenkins (Department of Haematology and Medical Oncology, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2007–2009

Identifying adult stem cells in normal and cancerous uterus
Dr Caroline Gargett (Department of Obstetrics and Gynaecology, Monash Medical Centre)

Cancer Council Victoria Research Grant 2008–2010

PapScreen Victoria Population Survey

Robyn Mullins, Jenny Anderson (CBRC)

PapScreen Victoria

Role of the protein kinase AKT3 in cancer

Dr Richard Pearson (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2008–2010

Kidney cancer

A platform to study early-onset and familial kidney cancer: the Consortium for Inherited Renal Malignancies (CONFIRM)
Dr Gianluca Severi (CEC)

COLLABORATORS: Dr Mark Jenkins, Professor Melissa Southey, Dr Rob Carroll, Dr Michael Bogwitz, Professor David Goldgar, Associate Professor Ian Davies, Associate Professor Michael Jefford, Dr Nick Pachter, Dr James Kearsley, Dr Tracy Dudding, Dr Kathy Tucker

Leukaemia and lymphoma

Control of leukaemic blood cells
Professor Emeritus Don Metcalf (Division of Cancer and Haematology, Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Carden Fellowship 1954–

Elucidating the regulation of leukaemia development
Dr Sarah Russell, Dr Helena Richardson (Research Division, Peter MacCallum Cancer Centre)

Cancer Council Victoria Research Grant 2007–2009

Mouse models to study the Bcl-2 family of proteins

Dr Philippe Bouillet, Dr Gabrielle Belz (Molecular Genetics of Cancer Division, Walter and Eliza Hall Institute of Medical Research)

Cancer Council Victoria Research Grant 2008–2009

A new leukaemia oncogene on chromosome 20

Associate Professor Lynda Campbell, Associate Professor Harshal Nandurkar, Dr Ruth MacKinnon (Victorian Cancer Cytogenetics Services, St Vincent's Health)

Cancer Council Victoria Research Grant 2009–2011

Study of the preleukaemic condition myelodysplasia in a mouse model

Dr Christopher Slape, Dr David Curtis, Professor Stephen Jane (Bone Marrow Research Laboratories, Melbourne Health)

Cancer Council Victoria Research Grant 2009–2011

Tetraspanin proteins and the immune response

Associate Professor Mark Wright (Department of Immunology, Monash University)

Cancer Council Victoria Research Grant 2009–2011

Liver cancer

Liver tumours and the Renin Angiotensin System

Professor Christopher Christophi, Professor Peter Angus, Mr Vijayaragavan Muralidharan (Department of Surgery – Austin Health, University of Melbourne)

Cancer Council Victoria Research Grant 2007–2009

Lung cancer

Lung Cancer Management Survey
Professor Graham Giles, Vicky Thursfield (CEC)

A collaboration between CEC and VCOG Lung Cancer Committee

Patients with lung cancer and their carers: providing support through novel information models

Associate Professor Michael Jefford, Tina Thomas, Amanda Spillare (CISS), Linda Miles (Peter MacCallum Cancer Centre)
Cancer Australia

Melanoma

New roles for the FoxP3 molecule in regulating the immune response and controlling anti-cancer immunity

Dr Lisa Ebert, Associate Professor Weisan Chen, Professor Jonathan Cebon (T Cell Lab, Ludwig Institute for Cancer Research)

Cancer Council Victoria Research Grant 2009

Multiple myeloma

Multiple Myeloma Cohort Consortium

Professor Graham Colditz, Professor Graham Giles (CEC)

A collaboration between CEC and the VCOG Sarcoma Advisory Committee

Nutrition and exercise

Development and evaluation of tools for dietary epidemiology

Professor Dallas English, Professor Graham Giles (CEC)

Diet and Nutrition Assessment Program

Professor Graham Giles, Professor Dallas English (CEC)

The effects of common junk food promotion strategies on parents: an experimental study

Dr Helen Dixon, Maree Scully, Professor Melanie Wakefield (CBRC)

Evaluation of the 'Piece of String' Obesity Awareness Campaign

Dr Belinda Morley, Professor Melanie Wakefield, Sally Dunlop (CBRC), Professor David Hill

National Secondary School Diet and Activity Survey (NASSDA)

Dr Belinda Morley, Maree Scully, Dr Helen Dixon, Professor Melanie Wakefield, Associate Professor Victoria White (CBRC)
COLLABORATORS: Technical Advisory Group national members, chaired by Professor Louise Baur

Cancer Council Australia, National Heart Foundation of Australia

Public attitudes to obesity policy initiatives

Dr Belinda Morley, Dr Helen Dixon (CBRC), Jane Martin (CPC)

Obesity Policy Coalition

Review of children's TV standards

Dr Belinda Morley (CBRC)
COLLABORATOR: Kaye Mehta

Coalition on Food Advertising to Children (CFAC)

Patient support

Cancer Chat: Evaluation of a facilitated online and telephone support group

Professor Annette Street (La Trobe University), Dr Amanda Hordern (CISS)

Cancer Voices evaluation

Associate Professor Victoria White, Sandra Brown (CBRC)

Cancer Voices

Discussing sexuality in the clinical setting: the impact of a brief training program for oncology health professionals to enhance communication about sexuality

Dr Amanda Hordern, Michelle Grainger, Sue Hegarty (CISS), Associate Professor Michael Jefford (CISS), Associate Professor Victoria White (CBRC)

Living with Cancer (LWC) program evaluations

Michelle Grainger (CBRC), Sue Hegarty (CISS)

Models of peer support for bowel cancer patients

Associate Professor Victoria White, Dr Sandra Ieropoli, Associate Professor Michael Jefford, Doreen Akkerman, Tina Thomas (CBRC, CISS)
COLLABORATOR: Cancer Australia

Multiple perspectives on sexuality and intimacy post-cancer, leading to the development and evaluation of supportive interventions

Dr Amanda Hordern (CISS) for ARC grant led by Professor Jane Usher, Cancer Australia Collaborative Cancer Support Networks project leader for CCV

A nurse led psychosocial intervention with peer support to reduce psychosocial needs in women with gynaecological cancer

Dr Penny Schofield, Professor Sanchia Aranda, I Juraskova, Linda Miles (CISS), M Krishansamy, L Webb, A Hocking, D Bernshaw, Doreen Akkerman (CISS), S Penberthy, R Bergin, Suzi Grogan, K Sharkey

A nurse assisted screening and referral program for depression among survivors of cancer: a feasibility study

Patricia Livingston, Melinda Craike, Associate Professor Victoria White (CBRC), Dr Amanda Hordern (CISS), Associate Professor Michael Jefford (CISS), Mari Botti, Carolyn Lethborg, John Oldroyd

Patients with lung cancer and their carers: providing support through novel information models

Associate Professor Michael Jefford, Tina Thomas, Amanda Spillare (CISS), Linda Miles (Peter MacCallum Cancer Institute)
Cancer Australia

Peer support program for cancer gene mutation carriers

Associate Professor Victoria White (CBRC)
COLLABORATORS: Mary-Anne Young, Associate Professor Michael Jefford (CISS), Dr Bettina Meiser, Professor Ingrid Winship, Dr Katherine Tucker (NBCF)

PROSPECT project steering committee

Professor Sanchia Aranda
COLLABORATORS: Doreen Akkerman (CISS), Dr Amanda Hordern (CISS), Professor David Hill, Associate Professor Michael Jefford (CISS), Ian Roos, Associate Professor Victoria White (CBRC), Dr Sandra Ieropoli (CBRC), Philippa Hartney, Robyn Moylan, Margaret McKenzie, Jessica Reynolds, Associate Professor Richard Bell, Professor Graham Giles, Helen Farrugia, Jeremy Millar, Mariko Carey, Professor Melanie Wakefield (CBRC), Melissa Loooram

Psychological morbidity, unmet needs and patterns of care in migrant cancer patients: the first year

Associate Professor Michael Jefford (CISS), P Butow
Cancer Australia

Reducing unmet psychosocial needs of colorectal cancer patients

Associate Professor Victoria White, Dr Michelle Macvean, Suzi Grogan, Dr Sandra Ieropoli (CBRC, CISS)

Referral of men newly diagnosed with prostate or colorectal cancer to a telephone-based support program

Dr Trish Livingston, Professor David Hill, Associate Professor Victoria White, Doreen Akkerman, Jane Hayman (CBRC, CISS)
COLLABORATORS: Interstate colleagues

National Health & Medical Research Council

Psychological morbidity, unmet needs, quality of life and patterns of care in migrant cancer patients: the first year

Associate Professor Michael Jefford (CISS), P Butow
Cancer Australia

Reducing unmet psychosocial needs of colorectal cancer patients

Associate Professor Victoria White, Dr Michelle Macvean, Suzi Grogan, Dr Sandra Ieropoli (CBRC, CISS)

COLLABORATORS:

Professor Robert Sanson-Fisher, Associate Professor Catherine D'Este, Dr Christopher Doran

National Health & Medical Research Council

Referral of men newly diagnosed with prostate or colorectal cancer to a telephone-based support program

Dr Trish Livingston, Professor David Hill, Associate Professor Victoria White, Doreen Akkerman, Jane Hayman (CBRC, CISS)
COLLABORATORS: Interstate colleagues

Testing the effectiveness of a web-based program involving quality of life and reducing anxiety for younger women with breast cancer: a randomised controlled trial

Associate Professor Victoria White, Jane Hayman (CBRC), Professor David Hill, Dr Amanda Hordern (CISS), Professor Ron Borland
COLLABORATORS: Dr Mariko Carey, Associate Professor Michael Jefford, Caroline Nehill, Meron Pitcher, Professor Robert Sanson-Fisher

National Breast Cancer Foundation, Beyond Blue, Cancer Australia 2009–2012

VCCCP CAM module and clinical guidelines

Associate Professor Michael Jefford, Dr Penny Schofield, Sue Hegarty (CISS)

Victorian clinicians' views on how to optimise cancer care in Victoria: a VCOG survey

Associate Professor Victoria White, Professor David Hill, Melissa Cameron (CBRC, VCOG)
COLLABORATORS: Associate Professor Raymond Snyder (St Vincent's Health), Associate Professor Jeremy Millar (The Alfred), Associate Professor Michael Jefford (Peter MacCallum Cancer Centre), Meron Pitcher (Western Hospital), Dr Jennifer Philip (St Vincent's Health), Dr Mariko Carey

Markers of inflammation and genetic variation and prostate cancer risk

Dr Gianluca Severi (CEC)
COLLABORATORS: Dr Vanessa Hayes, Dr Justine Ellis, Professor Rodney Sinclair

National Health & Medical Research Council Project Grant 2007–2009

Markers of inflammation and prostate cancer risk

Dr Gianluca Severi (CEC)
COLLABORATORS: Dr Mark Jenkins, Dr Vanessa Hayes, Dr C Hayden
National Health & Medical Research Council Project Grant 2008–2010

National collaborative phase III trial of timing of intervention with androgen deprivation in prostate cancer patients with a rising PSA (VCOG PR 2-03)

Professor Gillian Duchesne, Mr Rodney Syme, Professor Henry Woo, Deborah Howell (CTO), VCOG Urological Cancer Committee
45 patients were recruited in Victoria in 2009, contributing to a total Australasian accrual of 226. Australasian target 450.
COLLABORATORS: The Alfred, Barwon Health, Peter MacCallum Cancer Centre and 12 other sites in Australia and New Zealand

Pancreatic cancer

Dietary factors and risk of pancreatic cancer in the Pooling Project
Professor Jeanine Genkinger (Georgetown University, School of Medicine, Washington US)

COLLABORATORS:

Professor Graham Giles, Professor Dallas English, Dr Gianluca Severi

Pancreatic Cancer Management Survey

Professor Graham Giles, Vicky Thursfield (CEC)

A collaboration between CEC and VCOG Gastrointestinal Cancer Committee

Prostate cancer

ACTANE (Anglo-Canadian-Texan Australian-Norwegian-EU biomedical) Consortium: Search for high/moderate risk prostate cancer predisposition genes in the Cancer Research UK/British Prostate Group Familial Prostate Cancer Study, and ACTANE

Professor Graham Giles (CEC)
COLLABORATORS: Associate Professor Ros Eeles, Professor John Hopper, et al.

US National Institutes of Health Identification and assessment of genetic markers of prostate cancer risk

Dr Vanessa Hayes (Children's Cancer Institute Australia), Professor Robert Sutherland, Dr Gianluca Severi, Professor Graham Giles

Infections, inflammatory markers and prostate cancer risk

Professor Graham Giles, Dr Gianluca Severi (CEC)
National Health & Medical Research Council Project Grant 2008–2010

International Prostate Cancer Genetics Consortium

Professor Graham Giles (CEC)
COLLABORATORS: Professor William Isaacs, Professor John Hopper, et al.

US National Institutes of Health

Markers of androgen action, genetic variation and prostate cancer risk

Dr Gianluca Severi (CEC)
COLLABORATORS: Dr Vanessa Hayes, Dr Justine Ellis, Professor Rodney Sinclair

National Health & Medical Research Council Project Grant 2007–2009

Markers of inflammation and prostate cancer risk

Dr Gianluca Severi (CEC)
COLLABORATORS: Dr Mark Jenkins, Dr Vanessa Hayes, Dr C Hayden
National Health & Medical Research Council Project Grant 2008–2010

National collaborative phase III trial of timing of intervention with androgen deprivation in prostate cancer patients with a rising PSA (VCOG PR 2-03)

Professor Gillian Duchesne, Mr Rodney Syme, Professor Henry Woo, Deborah Howell (CTO), VCOG Urological Cancer Committee
45 patients were recruited in Victoria in 2009, contributing to a total Australasian accrual of 226. Australasian target 450.
COLLABORATORS: The Alfred, Barwon Health, Peter MacCallum Cancer Centre and 12 other sites in Australia and New Zealand

Royal Australian College of Radiologists, MaynePharma 2005–2007

Oestrogen induced prostate disease

Professor Gail Risbridger (Monash Institute of Medical Research)

Cancer Council Victoria Research Grant 2009–2011

Predicting the individual risk of prostate cancer in Australian men

Dr Gianluca Severi (CEC)

Propionibacterium acnes infection and prostate cancer risk and prognosis: a molecular epidemiology study

Dr Gianluca Severi (CEC)
COLLABORATORS: Dr Beverley Shannon, Professor Melissa Southey

Prostate Cancer Foundation Australia Project Grant

ProGRP as a biomarker for prostate cancer

Professor Arthur Shulkes, Dr Joseph Ischia, Associate Professor Graham Baldwin, Associate Professor Damien Bolton (Department of Surgery, University of Melbourne)

Cancer Council Victoria Research Grant 2008–2010

Prospective, randomised, open label, parallel group trial to determine if earlier versus delayed intervention with androgen deprivation treatment improves survival in prostate cancer patients with biological relapse as indicated by a rising PSA (VCOG PR 2-03): currently recruiting participants

Professor Gillian Duchesne, Mr Henry Woo (Sydney), Deborah Howell (CTO), VCOG Urological Cancer Committee
COLLABORATORS: The Alfred, Barwon Health, Peter MacCallum Cancer Centre and 12 additional Australian and New Zealand hospitals

Trans Tasman Radiation Oncology Group, Royal Australian College of Radiologists, National Health & Medical Research Council, Hospira

Prostate Cancer Family Study

Professor Graham Giles, Professor Dallas English (CEC)
COLLABORATORS: Professor John Hopper, Professor Margaret McCredie

E J Whitten Foundation

Radical Prostatectomy Register

Professor Graham Giles, Charmaine Smith (CEC)

A collaboration between CEC and VCOG Urological Cancer Committee

RAVES: Radiotherapy Adjuvant Versus Early Salvage following radical prostatectomy

Dr Andrew Kneebone (NSW), Dr Scott Williams (Vic, Peter MacCallum Cancer Centre), Professor Gillian Duchesne (Vic), Associate Professor Richard Fisher (Vic), Associate Professor Mark Frydenberg (Vic)

Cancer Council Victoria Multi-State Research Grant 2008–2010

Victorian Early Onset Prostate Cancer Family Study

Professor Graham Giles, Professor Dallas English (CEC)
COLLABORATOR: Professor John Hopper

E J Whitten Foundation

The research we fund

A whole genome association study to identify common susceptibility alleles for prostate cancer

Associate Professor Ros Eeles, Professor Doug Easton (Cambridge UK) **COLLABORATORS:** Professor Graham Giles, Professor John Hopper, Dr Gianluca Severi

Cancer Research UK

Renal cell cancer

Renal Cell Cancer Management Survey

Professor Graham Giles, Vicky Thursfield (CEC)

Sarcoma

Survey of the Clinical Management of Sarcoma in Victoria 2003–2007

Professor Graham Giles, Vicky Thursfield (CEC)

Skin cancer and sun protection

Australian Melanoma Family Study

Dr Graham Mann **COLLABORATORS:** Professor Graham Giles, Professor John Hopper, Dr Joanne Aitken, Professor Rick Kefford, Professor Bruce Armstrong

National Health & Medical Research Council

Media influences on sun protection: trends in Australian magazine portrayal of tanning and fashion, 1987–2005

Dr Helen Dixon, Professor Melanie Wakefield, Charles Warne, Dr Suzanne Dobbinson (CBRC)

VicHealth

National study of sun protection behaviours and related attitudes

Dr Suzanne Dobbinson, Professor David Hill, Professor Melanie Wakefield (CBRC), Craig Sinclair (CPC) **COLLABORATORS:** Interstate colleagues, Cancer Council Australia, Cancer Australia, state and territory Cancer Councils, Commonwealth Department of Health and Ageing

Observed sun protection behaviours of people at leisure in public places around Melbourne

Dr Helen Dixon, Dr Matthew Spittal, Maree Scully, Dr Suzanne Dobbinson, Professor Melanie Wakefield (CBRC), Professor David Hill

VicHealth

The role of pericytes in promoting cancer and as stem cells

Dr Pritinder Kaur (Research Division, Peter MacCallum Cancer Centre) **Cancer Council Victoria Research Grant 2009–2010**

Shade intervention for secondary schools

Dr Suzanne Dobbinson, Vanessa White, Kris Jansen, Professor Melanie Wakefield, Dr Mariko Carey, Associate Professor Victoria White (CBRC) **COLLABORATORS:** Professor Dallas English, Dr Julie Simpson

Sun protection behaviours and related attitudes of Victorians

Dr Suzanne Dobbinson, Kate Francis, Jen Makin, Professor Melanie Wakefield, Dr Matthew Spittal, Charles Warne (CBRC), Professor David Hill

VicHealth

SunSmart Program evaluations

Jennifer Makin, Kate Francis, Dr Suzanne Dobbinson, Professor Melanie Wakefield (CBRC)

Smoking cessation and tobacco use

Advertising and narrative communication

Professor Ron Borland Wakefield, Sally Dunlop (CBRC) **COLLABORATOR:** Associate Professor Yoshi Kashima

ARC Linkage Grant

Assessing the acceptability of alternatives to cigarettes

Professor Ron Borland (VCTC) **COLLABORATORS:** Bill King (VCTC), Professor Ann McNeil (University of Nottingham, UK), Dr Richard O'Connor, Dr Michael Cummings (Roswell Park Cancer Institute, US), Dr Lars Ramstrom (Sweden), Roswell Park (US) TTURC

The effectiveness of tobacco control policies in high versus low income countries. Tobacco packaging and labelling policies: expanding the evidence on novel policies

Dr Dave Hammond, Professor Geoffrey Fong (University of Waterloo) **COLLABORATORS:** Professor Melanie Wakefield (CBRC), Professor Ron Borland (VCTC)

National Institutes of Health, via University of Waterloo

Effects of anti-smoking advertising, tobacco news coverage and tobacco control policies on smoking behaviour

Professor Melanie Wakefield, Dr Sarah Durkin, Dr Matthew Spittal, Dr Mohammad Siahpush, Associate Professor Victoria White, Dr Julie Simpson, Michelle Scollo, Professor David Hill (CBRC) **COLLABORATORS:** Interstate colleagues

National Health & Medical Research Council

Effects of different anti-tobacco advertising campaigns on help-seeking for, and success with, smoking cessation

Victor Strecher **COLLABORATORS:** Professor Melanie Wakefield (CBRC), Lois Biener, New York State Tobacco Control Program

National Institutes of Health, via the University of Michigan

Effects of mass media campaigns on smokers of lower socio-economic status

Dr Sarah Durkin (CBRC) **International Union Against Cancer Yamagiwa-Yoshida Memorial International Cancer Study Grant Fellowship**

Effects of plain cigarette packaging on brand image: experimental studies

Professor Melanie Wakefield, Daniella Germain, Dr Sarah Durkin (CBRC)

Quit Victoria

Effects of plain cigarette packaging on smokers' perceptions and sensory experience

Professor Melanie Wakefield, Daniella Germain, Megan Bayly, Dr Sarah Durkin (CBRC) **COLLABORATOR:** Professor Marvin Goldberg

Quit Victoria

Effects of smoking and quitting on quality of life

Professor Jeff Richardson (Monash University), Professor R Cummins (Deakin University), Professor Ron Borland (VCTC)

National Health & Medical Research Council

Exposure to secondhand smoke in smokefree bars and outdoor cafés

Emily Brennan, Melissa Cameron, Dr Sarah Durkin, Professor Melanie Wakefield (CBRC), Professor Ron Borland (VCTC) **COLLABORATORS:** Mark Travers, Andy Hyland

Quit Victoria

Helping smokers with a history of depression quit smoking safely

Dr Catherine Segan (University of Melbourne and VCTC), Professor Ron Borland (VCTC), Suzie Stillman, Ian Ferretter (Quit Victoria)

beyond blue

How point of sale tobacco displays influence quitting: a cohort study

Daniella Germain, Molly McCarthy, Dr Sarah Durkin, Professor Melanie Wakefield (CBRC)

Quit Victoria

Impact of anti-tobacco advertising and tobacco news coverage on adult and adolescent smoking

Professor Melanie Wakefield, Dr Sarah Durkin, Associate Professor Victoria White, Dr Matthew Spittal, Charles Warne, Professor Ron Borland (CBRC, VCTC) **COLLABORATOR:** Dr Julie Simpson

National Health & Medical Research Council

Influence of narrative content and context of anti-smoking public health messages

Dr Sarah Durkin, Professor Melanie Wakefield, Emily Brennan **COLLABORATOR:** Associate Professor Yoshi Kashima

Australian Research Council Linkage Grant

Integrating mass disseminable cessation aids: telephone and internet

Professor Ron Borland, Dr James Balmford (VCTC) **COLLABORATORS:** Connor Graham, Associate Professor Steven Howard, Peter Benda (University of Melbourne) **National Health & Medical Research Council**

International Tobacco Control Policy Evaluation Study: Four countries

Professor Ron Borland (VCTC), Dr K Michael Cummings (Roswell Park Cancer Institute), Professor Geoffrey Fong, Professor M Thompson (University of Waterloo), Professor Gerard Hastings (Stirling University and The Open University), Professor Ann McNeill (University of Nottingham) **COLLABORATORS:** Dr Hua Yong, Dr David Young, Professor Melanie Wakefield (VCTC, CBRC)

National Health & Medical Research Council, US National Institutes of Health, Canadian Institutes of Health Research

International Tobacco Control Policy Evaluation Study: Product studies

Dr Richard O'Connor, Dr Michael Cummings (Roswell Park Cancer Institute), Dr David Hammond (University of Waterloo), Dr David Ashley (US Centers for Disease Control) **COLLABORATORS:** Professor Ron Borland, Bill King (VCTC)

National Institutes of Health

International Tobacco Control Policy Evaluation Study: South East Asia

Professor Ron Borland (VCTC), Professor Geoffrey Fong (University of Waterloo) **COLLABORATORS:** Dr Omar Maizurah (Universiti Sains Malaysia), Dr Buppha Sirinasamee (Mahidol University), Professor Mary Thompson, Dr David Hammond (University of Waterloo), Dr Hua Yong (VCTC)

National Institutes of Health, Canadian Institutes of Health Research

International Tobacco Control Policy Evaluation Study: China and Korea

Professor Geoffrey Fong (University of Waterloo), Dr Jiang Yuan (China CDC) **COLLABORATORS:** Dr Hua Yong, Dr Lin Li, Professor Ron Borland (VCTC) **Chinese CDC, Canadian Institutes of Health Research. Based at University of Waterloo, Canada**

A longitudinal study of pharmacological smoking cessation aids in real life settings

Professor R J Donovan, Dr O Carter (Curtin University) **COLLABORATORS:** Professor Ron Borland (VCTC), Professor M Siahpush (University of Nebraska), Professor M Daube (University of Western Australia) **National Health & Medical Research Council**

Non-linear modelling of effects of smokefree policies

Professor Ron Borland (VCTC), Associate Professor Sonja Lazarevic-Petrovich, Associate Professor Ken Coghill (Monash University) **COLLABORATORS:** Dr David Young (VCTC), Dr Jian Zhang, Associate Professor Chung-Tsing Yeh, Dr Sue Bedinfield (Monash University) **ARC Linkage Grant**

The research we fund

Quit Research and Evaluation Studies

Molly McCarthy, Daniella Germain, Dr Sarah Durkin, Emily Brennan, Professor Melanie Wakefield (CBRC) **Quit Victoria**

Responses to television anti-smoking ads among smokers in low and middle income countries

Professor Ron Borland (VCTC) **COLLABORATORS:** Trish Cotter, Sandra Mullin, In-country personnel in 10 nations **Bloomberg Global Initiative to Reduce Tobacco Use through the World Lung Foundation**

Smoking-related advertising and smoking behaviour in the United States

Sherry Emery, Frank Chaloupka **COLLABORATOR:** Professor Melanie Wakefield (CBRC)

National Institutes of Health, via the University of Illinois at Chicago

Tobacco, alcohol and illicit substance use among Australian secondary school students

Associate Professor Victoria White, Geoff Smith, Claire Davey (CBRC), Professor David Hill

Commonwealth Department of Health and Ageing

Tobacco, alcohol and illicit substance use among Victorian secondary school students

Associate Professor Victoria White, Geoff Smith (CBRC), Daniella Germain, Megan Bayly, Anna Machlin, Professor David Hill

Victorian Department of Health

Tobacco point of sale audit in Melbourne milk bars

Maree Scully, Daniella Germain, Molly McCarthy, Professor Melanie Wakefield

Quit Victoria

Tracking news coverage of tobacco issues

Professor Melanie Wakefield, Emily Brennan, Dr Sarah Durkin (CBRC) **National Health & Medical Research Council Principal Research Fellowship (Wakefield)**

Translating research into practice in tobacco control

Dr David Young (VCTC) **COLLABORATOR:** Professor Ron Borland (VCTC) **Roswell Park TTURC**

Victorian Population Surveys to measure impact of Quit campaign and trends in smoking behaviours

Molly McCarthy, Daniella Germain, Dr Sarah Durkin, Professor Melanie Wakefield (CBRC)

Quit Victoria

Young Adults Quit Smoking Project

David Buller (KleinBuendel, US) **COLLABORATORS:** Professor Ron Borland (VCTC), Dr Gil Woodall (University of New Mexico), Dr Abigail Halperin (University of Washington), Dr Herb Severson (Oregon Research Institute) **US National Institutes of Health, NCI**

Stomach and oesophageal cancer

A new approach to identifying individuals at risk of cancer

Associate Professor Alexander Dobrovic (Department of Pathology, Peter MacCallum Cancer Centre) **Cancer Council Victoria Research Grant 2009–2011**

Modulation of pathogen recognition receptors by cytokines in gastric cancer

Dr Brendan Jenkins, Dr Ashley Mansell, Dr Richard Ferrero (Centre for Functional Genomics and Human Disease, Monash Institute of Medical Research) **Cancer Council Victoria Research Grant 2008–2010**

Risk factors for gastro-oesophageal reflux disease and Barrett's oesophagus in a prospective cohort study

Professor Dallas English, Dr David Whiteman, Dr Robert Thomas, Dr Andrew Haydon, Professor Graham Giles

National Health & Medical Research Council Project Grant 2008–2010

Other

Research into diseases other than cancer sometimes results from our major epidemiological studies and is funded by or done in collaboration with other agencies.

Asia Pacific Cohort Studies Collaboration: cardiovascular disease in the Asia Pacific region

Professor Stephen MacMahon **COLLABORATORS:** Dr Xian Zang, Professor Mark Woodward, Professor Graham Giles

Collaboration on obesity/overweight and cancer (to examine and quantify the relationship between BMI and various disease and mortality endpoints within the NCI-sponsored Cohort Consortium)

Professor Geoffrey Tobias (National Cancer Institute US) **COLLABORATORS:** Professor Graham Giles, Dr Gianluca Severi, Dr Robert Macinnis

Development and validation of appropriate methods for the prediction of risk of future cardiovascular events in the contemporary Australian population: analyses of the Melbourne Collaborative Cohort Study (MCCS), Australian Diabetes, Obesity and Lifestyle (AusDiab) and Atherosclerosis Risk in Communities (ARIC) studies

Professor Andrew Tonkin, Professor Dallas English

Dietary and genetic risk factors for age related macular degeneration

Dr Robyn Guymer, L Robman, P Baird, A Islam, Dr Julie Simpson

Dietary factors and risk of pancreatic cancer in the Pooling Project

Professor Jeanine Genkinger (Georgetown University, School of Medicine, Washington US) **COLLABORATORS:** Professor Graham Giles, Professor Dallas English, Dr Gianluca Severi

Dietary intakes of electrolytes

Professor Caryl Nowson, Dr Sharleen O'Reilly (Deakin University) **COLLABORATORS:** Professor Graham Giles, Professor Dallas English, Maree Brinkman

Dietary intake of electrolytes and relationship to blood pressure

Professor Caryl Nowson (Deakin University) **COLLABORATORS:** Dr Kate Huggins, Dr Sharleen O'Reilly, Professor Graham Giles, Professor Dallas English

Do retinal vascular measures predict structural change at the knee? A longitudinal study

Professor Flavia Cicuttini (Monash University) **COLLABORATORS:** Professor Graham Giles, Professor Dallas English

Effect of dietary calcium intake on bone and vascular events: a population based longitudinal cohort

Professor Peter Ebeling (Melbourne University) **COLLABORATORS:** Professor Dallas English, Professor Graham Giles

Effect of physical activity in preventing osteoarthritis

Dr Flavia Cicuttini **COLLABORATORS:** Professor Graham Giles, Professor Dallas English

Epidemiology of age-related macular degeneration in Health 2020

Dr Luba Robman **COLLABORATOR:** Dr Robyn Guymer

Epidemiology of hereditary haemochromatosis

Dr Dorota Gertg **COLLABORATORS:** Professor Graham Giles, Professor Dallas English, Dr Allison Hodge, Professor John Hopper

Ethnicity, cardiovascular disease risk factors and cardiovascular disease mortality

Dr Kevin Rowley, Laima Brazionis, Professor Kerin O'Dea, Professor Andrew Tonkin, Professor Graham Giles (CEC)

Genetic risk information disclosure (GRID)

Professor Ingrid Winship (Royal Melbourne Hospital), Susan Fitzpatrick (CTO) **COLLABORATOR:** Associate Professor Victoria White (CBRC) **Victorian Department of Health**

Investigating the genetics of adult height

Dr Justine Ellis (Melbourne University), Professor Stephen Harrap (Physiology, University of Melbourne) **COLLABORATOR:** Professor Graham Giles

Iodine status in Melbourne adults 1990s and 2007–08

Professor Caryl Nowson, Dr Sharleen O'Reilly (Deakin University), Professor Cress Eastman (University of Sydney) **COLLABORATORS:** Professor Graham Giles, Professor Dallas English, Maree Brinkman (CEC)

A paradigm of genomic discovery: an investigation of the allelic architecture of height

Dr Justine Ellis, Professor Stephen Harrap, Dr Gianluca Severi (CEC)

Peripheral blood methylation: a potential biomarker for predicting disease risk

Associate Professor Alexander Dobrovic (Peter MacCallum Cancer Centre), Associate Professor John Seymour **COLLABORATORS:** Professor Graham Giles, Dr Gianluca Severi

The relationship between tobacco use and plasma lipoprotein sub-class particle size and concentration as determined by nuclear magnetic resonance spectroscopy

Alison Beauchamp

The relationship between trends in BMI and joint replacement in Australia

Dr Anita Wluka, Monash University, Dr Anna Peters, Professor Flavia Cicuttini **COLLABORATORS:** Professor Graham Giles, Professor Dallas English

Retinal arteriolar signs and cardiovascular disease in an Australian cohort

Professor Tien Wong, Professor Andrew Tonkin **COLLABORATORS:** Professor Graham Giles, Professor Dallas English

Centre for Eye Research Australia
