

POSTDOCTORAL CANCER RESEARCH FELLOWSHIPS

Commencing 1 July 2019

Applications close at 5.00 pm, Friday 12 April 2019

Cancer Council Victoria is an independent not-for-profit organisation which was established in 1936. We play a leading role in reducing the impact of all cancers on all people. We conduct and support research as well as delivering state-wide support and prevention programs and advocating regulation and other interventions to reduce the physical and emotional burden of cancer.

Cancer Council Victoria offers postdoctoral fellowships as a way of providing research assistance to **Victorian PhD candidates** at the time of thesis submission. There are two rounds each year. In applying, **a strong case must be made to continue in the present research group for a further six months or year.**

FELLOWSHIP DETAILS

Eligibility:

The fellowship is available to researchers who have recently submitted their PhD. To be eligible, applicants must have their thesis submitted or accepted as passed between **1 October 2018 and 31 March 2019.**

'Submission of thesis' is defined as having submitted a PhD thesis with the University Graduate Office and the thesis has proceeded to examination. Evidence showing that the thesis has been submitted and is under examination is acceptable to meet this eligibility criterion.

'Accepted as passed' is defined as having lodged a PhD thesis with the University Graduate Office, that the thesis has been examined and that a letter or other document is available indicating that the PhD has been accepted as passed.

The next round of postdoctoral fellowships will be for PhDs submitted between 1 April 2019 and 30 September 2019. Applications will close in October 2019.

Remuneration:

The fellowship funding will be paid to the administering institution at the NHMRC Personnel Support Package (PSP) Level 3 rate of \$76,798 per annum (pro rata for six months). The PSP amount covers all salary and salary on-costs (eg payroll tax, workers compensation, leave loading, compulsory and contributory superannuation) as well as some minor operational support.

Duration:

The fellowship is for six months or one year, commencing 1 July 2019.
