

Postdoctoral Fellowship Application

Instructions for completing the application form

Application form

- Name the form following the format of [Surname][Firstname Initial]-PostdocApp (eg. SmithA-PostdocApp). Read the application form carefully.
- Fill in all the boxes in the application form. Key in 'NA' if not applicable.
- Create a PDF of the completed document. Do not scan the document as an image (JPEG, TIFF, GIFF, etc). PDF created from an image of this document will not be acceptable. An image copy of the document will prevent automatic data extraction/exportation and enlarges the file size of the document making file transfer to the reviewers difficult.

Certification page

- Name the form following the format of [Surname][Firstname Initial]-Certify (eg. SmithA-Certify). If you are unable to affix electronic signatures, you may print the page allotted for certification only and then scan it when signed. This may be submitted in any format (JPEG, PDF, DOC, etc.).
- Please check that you have named both documents properly and send by email to rgu@cancervic.org.au. For queries, please phone Cathy Schapper on (03) 9514 6318.
- Attach evidence of "eligibility" as per Checklist items 8 and 9 (see Checklist at bottom of Certification page).
